

Would you be interested in working in a new research field related to **energy harvesting**?

ThermoPAn

We are seeking highly motivated candidates to fill a Ph.D. position in experimental physics. In particular, we offer a PhD Fellowship in “Thermomagnetic Materials with Perpendicular Magnetic Anisotropy” that will be developed in the Nanomagnetism and Magnetization Processes Group at the Instituto de Ciencia de Materiales de Madrid (ICMM-CSIC)

Requirements: High motivated student with Bachelor and Master's degree in Physics, Material Science or a related field.

Contact: Send us an email to a.asenjo@csic.es and/or david.navas@csic.es

Application: Since 26/July/2023

Expected start date: October/November 2023

For more information: <https://wp.icmm.csic.es/gnmp/> and <https://sites.google.com/view/agustina-asenjo>
