

POSTDOC POSITION at INSTITUTO DE CIENCIA DE  
MATERIALES DE ARAGON in ZARAGOZA/SPAIN  
at “Magnetismo en nanoestructuras y sus aplicaciones”  
Group  
Instituto de Ciencia de Materiales de Aragón (ICMA)  
Instituto de Nanociencia de Aragón (INA)  
Consejo Superior de Investigaciones Científicas –  
Universidad de Zaragoza

One postdoc position (22 months) supported by Spanish Ministry of Science and Innovation is currently available in the frame of the ongoing research Project INNPACTO IPT-42000-2010-021 in the research on nanostructured materials for application in spintronics.

The candidates must have a PhD in Physics with solid background in preparation of thin films and multilayers by pulsed laser deposition (PLD) and/or sputtering of functional oxides (ferroelectric, ferromagnetic, multiferroic, etc.) and metals, structural (TEM, XRD, XPS, SEM, etc.) and physical (magnetic and transport properties) characterization. The position provides access to the research infrastructure of the "Magnetism in nanostructures and their applications" group at the ICMA and INA suitable for the investigation sought.

The contract has an estimated duration of 22 months, salary is € 2298,23 (before taxes) per month with 14 annual payments. The candidates must present the documentation required in the attached document according to the CSIC normative.
