

Postdoctoral Position in Nanomagnetism

University of Cantabria – Magnetism in Matter Group (Santander, Spain)

Nanoparticles • Magnetotactic Bacteria • Neutron Scattering • Magnetometry

<https://grupos.unican.es/magnetismo/>

What we offer

- Permanent research contract (“indefinite” under Spanish Science Law)
- Funding horizon: ~18 months
- 💰 ~2,500 €/month (gross)
- State-of-the-art labs: **SQUID**, **PPMS**, **XRD**.
- Access to **neutron & synchrotron facilities**
- International, collaborative environment

Research topics

1. Structural analysis (XRD, XANES/EXAFS...)
2. Magnetic characterization (SQUID, VSM, AC susceptibility...)
3. Neutron techniques (SANS, ND, ...)

Candidate Profile

- PhD in Physics / Materials Science / Chemistry / Nanoscience
- Experience in magnetism or structural techniques
- Open to all nationalities (support for work/residence permits)
- English required, Spanish optional

How to apply

Submit your application *exclusively* via the UC Electronic Office:

<https://sede.unican.es/tramites-y-procedimientos>

Procedure: “**Pruebas selectivas de personal investigador indefinido...**”

Required docs: ID/passport, fee receipt, PhD diploma, CVA/CVN, supporting docs

Deadline: December 17 (23:59 CET)

Application conditions:

<https://boc.cantabria.es/boces/verAnuncioAction.do?idAnuBlob=427543>
